

Vishwanath Shashikant Sabarad

9019366646 | vishwanath.sabarad14@gmail.com | LinkedIn
Shrial Shetty Chowk, Near Upali Buruz, Vijayapura - 586101, Karnataka

EDUCATION

M S Ramaiah Institute of Technology <i>Bachelor of Engineering in Chemical Engineering - 8.23 CGPA</i>	Bengaluru, Karnataka <i>Jan 2021 – May 2024</i>
Excellent P.U. Science College <i>Percentage: 84.4%</i>	Vijayapura, Karnataka <i>Jun 2018 – Mar 2020</i>
Shri Rabindranath Tagore School <i>Percentage: 94.4%</i>	Vijayapura, Karnataka <i>Jun 2017 – May 2018</i>

EXPERIENCE

RESCONS Solutions Pvt. Ltd. — Indian Institute of Science <i>Simulation and Process Optimization in Iron & Steel Industry</i> - Simulated and optimized Lurgi-based coal gasification and DRI plant processes using Aspen Plus. - Performed mass and energy balances, reaction kinetics analysis, and syngas composition evaluation. - Conducted sensitivity analysis on process parameters to optimize reduction kinetics and process efficiency. - Developed strategies for energy integration to minimize carbon footprint in iron-making processes.	Jul 2024 – Present
Modelicon Infotech LLP <i>Simulation and Analysis of Natural Refrigerant-Based Cooling Systems</i> - Modeled refrigeration cycles for CO₂, Ammonia, Isobutane, and Tetrafluoropropene using Aspen HYSYS. - Evaluated thermodynamic performance and optimized refrigerant selection for efficiency and sustainability.	Jan 2024 – May 2024
Karnataka Soap and Detergents Ltd. <i>Production and Quality Analysis of Soaps and Detergents</i> - Assessed manufacturing processes, formulation techniques, and quality control standards. - Optimized production efficiency while ensuring high product quality and consumer satisfaction.	Nov 2023 – Dec 2023

PROJECTS

Iron & Steel Industry Process Simulation Simulated and optimized Lurgi-based coal gasification and DRI plant operations using Aspen Plus to enhance yield and reduce environmental impact.	Jul 2024
Natural Refrigeration Systems Simulation Modeled refrigeration cycles in Aspen HYSYS for CO₂, Ammonia, Isobutane, and Tetrafluoropropene to optimize energy efficiency and system performance.	Jan 2024
Recycle Gas Compressor Loop Analysis Analyzed RGC loop in a Diesel Hydrotreater Unit for Thyssenkrupp Uhde India Pvt Ltd, determining settle-out conditions and design parameters for safe operations.	Oct 2023

TECHNICAL SKILLS

Simulation Tools: Aspen Plus, Aspen HYSYS, DWSIM, COMSOL
Programming: MATLAB, Python, SQL
Core Concepts: Mass & Energy Balances, Process Control, CFD, Reactor Design, Equipment Sizing

ACHIEVEMENTS

- Completed **Aspen Plus V11 Masterclass** (Udemy) covering process simulation and reactor design.
- Earned **MATLAB Certification** through Onramp training.
- Presented project on *Natural Refrigeration Systems* at Pradarshana 2024, MSRIT.
- Runner-up at Chemovation Conference, DSCE for innovative refrigeration project.
- Showcased solutions at *Innovation Pavilion, Chemtech Student Outreach Program*, ICT Mumbai.

LANGUAGES

Hindi, English, Kannada, Marathi
